Professional Summary

Computer Science and Engineering graduate with hands-on experience in Artificial Intelligence, Machine Learning, Full Stack Development, Android Development, and FinTech applications. Built AI-powered healthcare, digital payment, and real-time tracking solutions using Python, TensorFlow, Java, React, Next.js, Firebase, and PostgreSQL. Seeking the RBI Young Professional (Artificial Intelligence) role to contribute to AI-driven research, analytics, and responsible innovation.

Education

Bachelor of Engineering (Computer Science & Engineering)
Vivekananda Institute of Technology (VTU)
CGPA: 8.05 | Graduation: 2026

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL
Frameworks: React, Next.js, Node.js, JSP, Servlets
AI/ML: TensorFlow, TensorFlow Lite, Computer Vision
Databases: MySQL, PostgreSQL, Firebase
Tools: Git, VS Code, REST APIs

Projects

- EcoSkin: AI-powered skin analysis using TensorFlow, Python and Computer Vision.
- YM-Pay: Secure digital wallet with authentication, PostgreSQL and payment workflows.
- Grama-Yatri: Android bus tracking app using Firebase, Maps and notifications.

Internships

- Lemonview AICLAB, AI based Android Application Development, International internship
- Covalence Global Private Limited, Java Full Stack Internship
- Pentagon Space, Python Full Stack Internship

Certifications

- Google AI Essentials
- NPTEL Certifications
- AI/ML Training
- Python Full Stack Certification

Relevant for RBI FIN01

- AI & Machine Learning
- TensorFlow
- Python
- Computer Vision
- Data Analysis
- Responsible AI (learning)
- Research & Technical Documentation
